

## GOOD NEWS UPDATE! December 2019

**This is an overview and some of the recent achievements of the Human Dignity and Humiliation Studies (HumanDHS) network.**

(Please visit the HumanDHS website to download the PDF edition of this document with active links.)

### ➤ **Our 33rd Annual HumanDHS Dignity Conference in Brazil was unlike any other we had before!**

The conference took place at the time when the Amazon had just been set on fire, and everyone was in a state of anxiety, alarm, and emergency.

Because of the environmental emergency, the conference didn't take place in a fixed location. Instead it unfolded as a "caravan conference," where the conveners went to the participants to engage in dignity dialogues. This mobile methodology allowed the program to be responsive to the conditions on the ground, sometimes changing course from minute to minute. Thus it became a fluid conference, like a river that always finds its way.

The participants began meeting on August 28, 2019, in Marabá, the "gate to the industrialization of the Amazon," and we concluded the conference on September 7, 2019, in Belém, a place of immense cultural diversity, visionary history, and deep indigenous roots.

### **Learning from the True Experts**

We had the great privilege of learning from the *true experts of sustainable dignifying life*, namely, those who know how to live with the rainforest, rather than against it — we admired the knowledge of a fishing community and a gardening community. We also had the privilege of speaking at the City

Council of Marabá, where we went to schools and the university. In Belém, we were honored by being invited into the Legislative Assembly of the State of Pará on World Amazon Day, September 5th.

### Special Thank Yous!

We wish to express our profound gratitude to the inspirers, hosts, conveners, and organizers of this conference, Dan Baron and Manoela Souza. They are the directors of the Transformance Institute: Culture & Education and its AfroRaiz Youth Collective of the "Rios de Encontro" (Rivers of Meeting) project in the Community University of the Rivers in Marabá, Pará, Brazil. Our gratitude goes as much to Sandro Ruggeri Dulcet, who took over as convener of the second part of our conference in Belém. We thank Sandro and his wife Marluca for their most generous hospitality! Furthermore, we highly appreciated the invitation of Congressman Dirceu Ten Caten to Amazon Day.

### ➤ A New Way to Connect to Workshops and Conferences: WhatsApp?

For the first time ever, Gabriela Saab initiated and hosted a new way to connect with the conference through texting. Using WhatsApp, a phone texting program, many participants were able to join in discussions examining ecological and political threats to the Amazon Rainforest and Indigenous communities. Please join us in thanking Gaby for her many valuable contributions to the conference!

### ➤ If DIGNITY was a tree

What would we see?

Among its branches, inspiringly there would be three:

Character-elevation | Behavior-amelioration |

Life-quality transformation

Among the fruit Dignity would bear,

what would you and me share?

Dignicharacter formation | Dignilogue cultivation |

Digneconegalization | DigniNature preservation |

DigniHumanity education

Inspired by these words by Professor Francisco Gomes de Matos, murals were painted by the pupils of Redjane Andrade, a teacher of English at a public school in Recife, in August 2019. It was made into a T-shirt that Professor Francisco can wear!

### ➤ Meeting with Leaders in Marába

At the opening of the ordinary session on the morning of Wednesday, August 28, 2019, the Marabá City Council welcomed members of the Rivers of Encounter Project. Six young people from the Cabelo Seco Community said good-bye before departing to Europe to defend the Amazon, to show the strength of culture and what they are doing to help preserve it. ➤ **A Cry for Help: Children of the Amazon**

"Dear Amazon...We value you now, but only after learning an important and valuable lesson in life: That something so natural cannot be sold as if it were property...We human beings did not value you soon enough. If we had all collaborated with you, today you would be beautiful and radiant." The children from the Irmã Theodora School in the municipality of Marabá in Para, Brazil (August 2019). And if so, are there alternatives that actually work? She shares her big idea — there are plenty of alternatives to war, if only we choose to use them.

➤ **TEDx Talk with Robin Edgar: Reminiscence: A Healing Pathway to Forgiveness**

Congratulations to Robin Edgar for her recent [TEDx presentation](#). It offers a powerful prescription for personal healing, and forgiveness can come when we share our stories.
