Areas of
Human Rights; Right to Healthy and
Adequate Food; Documentary
videomaking

What would you like to get out of this gathering?

I'd like to hear more about other people experiences and how human dignity and humiliation studies is being applied in research.

What would you like to contribute to this gathering?

I will be glad to discuss how the concept of dignity is important for the affirmation of Human Right to Food. I'd also like to make a video interviewing some of the speakers/participants and help spread the word of their work and knowledge of dignity.

What does dignity mean to you and your work?

I research the Right to Food as a Human Right. Dignity is a key element for the fulfillment of this right once it can only be assured in a dignifying environment both for producers and consumers. Dignity in the food system means fair trade, opportunities for small producers, healthy food accessible for all, respect to local culture, and for the nature.

**Thank
You!**
