Presentation summary for the 2010 Workshop on Humiliation and Violent Conflict, Columbia University, New York, December 9-10, 2010

*ART*iculating(c) Human Dignity will present my argument about *ART*iculation(c) as a human developmental knowledge behavior structurally connected to neuroplasticity and cultural epigenetics. It will bring a critical view of the school system in terms of human dignity, and will be illustrated by slides from a multi-media project by Drew Cavanaugh, who was a 10th Grade student at the time of research. Drew Cavanaugh will be present.
