

First Imagined Day

Night and day
Non-rhythmic stitch work

Breath held
Breath released
Breath gasped back

Some distant thing
Longing for light

Blindly groping
Numbly feeling
Mutely listening

Light without need
Imagined, just so!

Unmasked presence
Caring warmth
Fluid connection

Once more Night
and day, cadenced

Attuned breath
Reality inhaled
Abundance exhaled

A little animal
Sniffing for light
Firefly catching
a shady path skill

Interbeing once more
Together
